## APPLICATIONS

It is ideal for the collection of solid and semi-liquid waste.

To be used in combination with the microfiber cloth 60x40 cm ( to be fixed to the support with two clips). It is an economic, hygienic, efficient, very light, compact and easy to use system.

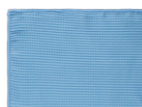

## FEATURES

- Hygienic thanks to the single rubber blade
- The rubber blade adheres perfectly to different types of floors and it is low concentration acid resistant
- Universal screw that allows the use of any kind of handles with diameter from 20 to 24 mm

## MATERIAL

Polypropylene copolymer, polyamide, nylon and rubber
