APPLICATIONS

It is suggested for the waste collection in places as hotels, schools, hospitals, restaurants, food industries, canteen and public places.

FEATURES

- PSV - Second Life Plastic - certified product: the first Italian and European brand of environmental product certifications that guarantees and enables to easily identify the products made with recycled plastic
- Made of high quality polypropylene copolymer: shock-proof, heavy duty and low-temperature resistant, light, non-toxic, completely recyclable
- Easy to use, handy to move and pleasant to the eye
- Equipped with bag-stretcher for a better holding of the bag
- The asymmetric swing lid allows to open them easily, even if they are placed against the wall. It has an opening block which holds the lid at its maximum opening
- The swing lid is available in different colours, both to match different environments and to make the separate collection of the rubbish
- It can be equipped with a removable holder on request in order to couple several bins together

MATERIAL

Polypropylene copolymer - PSV
