21020U	Easy Wash plastic sieve						1 pc.

## APPLICATIONS

Suited for semi-professional wet mopping of horizontal and vertical surfaces in small environments.

## FEATURES

- Made of high quality polypropylene copolymer: light, shock-proof, heavy duty and low-temperature resistant
- Bucket with bottom protection rim and an ergonomic seizing to empty it easier
- Special shaped sieve that facilitates the squeezing of the mop. It lays entirely onto the bucket border guaranteeing a better resistance. Equipped with handle holder
- The mop holder allows to fix and release the mop automatically, avoiding the operator's bending and the direct contact with the dirty mop. The foot-operated push-button on the central part of the mop holder allows to open it in order to squeeze the mop
- Microfibre mop with micro flaps for an easy, quick and safe mop fastening. Ideal for all smooth flooring, medium degree of dirt. The high absorbency due to its capillary action guarantees a great floor covering, a fast floor drying and less stains. Polyester, thanks to its hooked micro-structure, generates a non abrasive mechanical action to remove dirt, while polyamide, due to its high absorbing power, retains water and the removed dirt

## MATERIAL

Bucket: Polypropylene

Sieve: Polypropylene

Mop holder: Polypropilene and Polyamide

Mop: yarn 80% microfibre (100% polyester) + 20% polyamide, TNT backing and polyurethane flaps - Microfibre: decitex=0,75

## MOP ABSORBENCY

A dry mop absorbs up to twice its own weight

## MOP LIFE CYCLE

Can be washed max 400 cycles if washing instructions and warnings are followed

## CARE AND MAINTENANCE

### WARNINGS FOR MOP WASHING

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing  
Pre-wash cycle in cold water to remove any residue of the used product  
Do not use softener  
Do not use chlorine or bleach  
Use alkaline detergents with Ph < 11  
We suggest to use the specific net bags for the mop washing

### WASHING INSTRUCTIONS FOR MOP

RECOMMENDED washing temperature: 60°C with standard laundry detergent (follow the instructions on the detergent packaging)  
Normal rinse cycle  
Normal tumble dry  
Mechanical drying at low temperature

## ECO BOX

### ECO-FRIENDLY PRODUCT

100% solar-powered textile production

### ECO-FRIENDLY PRODUCT

Polypropylene copolymer components are non-toxic and totally recyclable
